

## Conditions Targeted by Medicaid Health Homes

States can improve care coordination and care management for Medicaid beneficiaries with complex needs by creating health homes. Health homes integrate physical and behavioral health services (both mental health and substance abuse) and long-term services and supports for high-need, high-cost Medicaid populations. As of December 2015, there are 27 approved health home models in 20 states and the District of Columbia.<sup>1</sup> States may target health home services to individuals with: (1) two chronic conditions; (2) one chronic condition and risk for a second; or (3) a serious mental illness. The following table lists the conditions targeted by each health home model. For more information on the specifics of conditions included or excluded by states, refer to the text of the state plan amendments.<sup>2</sup>

State/Model	SMI/ SED	Chronic Conditions																						
		Mental Health Conditions*	Substance Use Disorder*	Asthma*	Diabetes <sup>3*</sup>	Heart Disease <sup>4*</sup>	BMI over 25 <sup>5*</sup>	Cancer	Cerebrovascular Disease	COPD	Dementia <sup>6</sup>	Gastrointestinal disease <sup>7</sup>	Hematologic conditions	Hepatitis B or C	HIV/AIDS	Hyperlipidemia	Hypertension	I/DD	Musculoskeletal Conditions <sup>8</sup>	Neurological Conditions <sup>9</sup>	Renal Disease <sup>10</sup>	Sickle Cell Anemia	Other	Other Conditions Targeted
<a href="#">Alabama</a> : Chronic conditions and SMI	X	X	X	X	X	X	X	X		X				X	X							X	X	transplants
<a href="#">District of Columbia</a> : SMI	X																							
<a href="#">Idaho</a> : Chronic conditions and SMI	X	X		X	X																			
<a href="#">Iowa</a> : Chronic conditions		X	X	X	X	X	X	X									X

<a href="#">Vermont:</a> SUD			X																				X	opioid dependency only
<a href="#">Washington:</a> Chronic conditions		X	X	X	X	X		X	X	X	X	X		X				X	X	X	X			
<a href="#">West Virginia:</a> Chronic conditions																							X	bipolar disorder at risk for hepatitis B and/or C
<a href="#">Wisconsin:</a> HIV/AIDS															X									

BMI = body mass index

COPD = chronic obstructive pulmonary disease

I/DD = intellectual/developmental disability

N/A = not applicable

SED = serious emotional disturbance

SMI = severe mental illness

\* The health homes statute specifically lists SMI, mental health conditions, substance use disorder, asthma, diabetes, heart disease, and BMI over 25 as being chronic conditions. States may target other chronic conditions of their choice.

<sup>1</sup> Oregon had a Medicaid health home program, but it withdrew its SPA and is no longer providing services under the 2703 option.
